Welcome to ALVIC

As a dynamic subsidiary of the esteemed ALVIC Group—Spain’s pioneering force in furniture components since 1965—ALVIC USA embodies over five decades of relentless innovation, superior craftsmanship, and global excellence. From our origins in Alcaudete, Jaén, where we revolutionized the industry as the first factory in Spain and Southern Europe dedicated to furniture production, ALVIC has grown into a worldwide leader, serving more than 100 countries across five continents. Today, we bring that same heritage of quality and forward-thinking design directly to North America, empowering architects, designers, and manufacturers to create spaces that inspire.

At the core of our U.S. operations lies our state-of-the-art manufacturing facility in Lakeland, Florida—a sprawling 350,000-square-foot powerhouse of automation and ingenuity, opened in 2019. This plant produces custom-cut and edged pieces, along with decorative panels, ensuring swift, reliable delivery to fuel your projects. Here, sustainability meets sophistication, as we harness advanced technologies to minimize waste while maximizing beauty and functionality.

Discover our portfolio of high-performance solutions, including the market-leading LUXE high-gloss finishes for a luxurious sheen, ZÉNIT SuperMatt surfaces with anti-fingerprint resilience, and SYNCRON textured designs that add depth and realism. With over 100 colors—from classic solids and woodgrains to metallic effects and textiles—plus our Just-In-Time service for bespoke doors and pieces, ALVICUSA equips you to transform kitchens, bathrooms, offices, and beyond into timeless masterpieces.

We invite you to explore this catalog and envision the possibilities. At ALVICUSA, we’re not just building components—we’re crafting the future of design. Let’s create something extraordinary together.

High Gloss with a Mirror Effect

The LUXE finish collection features luminous high gloss with a mirror effect and enhanced durability. A quality engineered core (MDF) serves as the substrate for pressed decorative paper impregnated with resins and additives that have been formulated to create the ultimate high gloss finish. A lacquer layer with UV treatment is applied last adding to the durability and surface quality.

High Scratch Resistance

Reliable performance and longevity in high traffic residential and commercial environments

Stain Resistant

Designed for daily use, resistant to many types of food stains

Easy to Clean

Cleans easily with a microfiber cloth, soap, and water

Lasting Durability

Quality and durable surface that will perform and last in high traffic environments

Highly Reflective

LUXE technology offers extraordinary beauty with mirror-level reflectivity and shine

Antibacterial Treatment

Protective shield on the surface that prevents the spread of harmful microorganisms

Color Stability

Colors will maintain their tone over time and with exposure to indoor light and sunlight

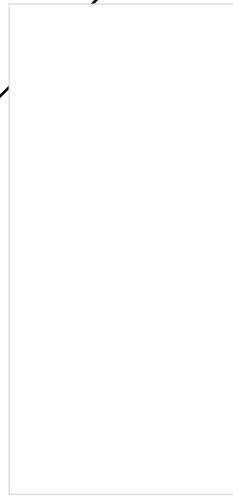

Ecologically Responsible

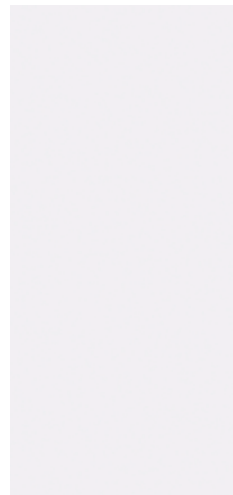

Products are made with certified raw materials from sustainable forestry practices

Supermatt finish with Silk Touch

The ZENIT finish collection features a lacquered, velvety-soft, supermatt surface. A quality engineered core (MDF) serves as the substrate for pressed decorative paper impregnated with resins and additives that have been formulated to create the silky and ultra-low sheen finish. A lacquer layer with UV treatment is applied last adding to the durability and surface quality, which includes high resistance to scratches and abrasion.

Stain Resistant
Designed for daily use, resistant to many types of food stains

Easy to Clean
Cleans easily with a microfiber cloth, soap, and water

Lasting Durability

Natural Textures

The SYNCRON finish collection features highly decorative and textured surfaces in an attractive range of designs that recreate wood, stone, textiles and other abstract patterns. A quality engineered core (particleboard) serves as the substrate for pressed decorative paper impregnated with resins and additives that have been formulated to create very realistic visual and tactile textured details.

* Depends on the design

Highly Decorative

The beauty of natural patterns and textures for wide appeal and numerous applications

Stain Resistant

Designed for daily use, resistant to many types of food stains

Easy to Clean

Cleans easily with a microfiber cloth, soap, and water

Standard
Grade 5 EN 14323:17

New Generation 3.0

Zenit, our **supermatt lacquered surface, silky to the touch and anti-fingerprint**, first launched in 2014, is once again revolutionizing the world of interior design with its **New Generation 3.0**.

True to its commitment to innovation, continuous research and improvement of technologies have led to the introduction of the **New Generation 3.0** for **Zenit**, the benchmark in **supermatt lacquering with irresistible silk touch**.

This new generation offers **higher surface resistance to scratching and high abrasion resistance**, allowing both **horizontal and vertical applications**.

Its unique process ensures **maximum colour stability**, and its microscopic superficial structure allows for **low light reflection**, resulting in an extremely super matt finish.

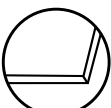

Main properties of Zenit Range:

High scratch
resistance 5 ± 1 N ★
Standard
EN 438.2

High abrasion
resistance 700 cycles
Standard
EN 14322:17

Application suitable for
horizontal surfaces ★

Maximum colour
